**The Cave Dwellers**-Christina McDowell  
2021-05-25 This “delicious take on the one percent in our nation’s capital” (Town & Country) and clever combination of The Bonfire of the Vanities and The Nest explores what Washington, DC’s high society members do behind the closed doors of their stately homes. They are the families considered worthy of a listing in the exclusive Green Book—a discriminative diary created by the niece of Edith Roosevelt’s social secretary. Their aristocratic bloodlines are woven into the very fabric of Washington—generation after generation. Their old money and manner lurk through the cobblestone streets of Georgetown, Kalorama, and Capitol Hill. They only socialize within their inner circle, turning a blind eye to those who...
come and go on the political merry-go-round. These parents and their children live in gilded existences of power and privilege. But what they have failed to understand is that the world is changing. And when the family of one of their own is held hostage and brutally murdered, everything about their legacy is called into question in this unputdownable novel that "combines social satire with moral outrage to offer a masterfully crafted, absorbing read that can simply entertain on one level and provoke reasoned discourse on another" (Booklist, starred review).

spectacular cave paintings of France and Spain—the individuals who rediscovered them, theories about their origins, their splendor and mystery. Gregory Curtis makes us see the astonishing sophistication and power of the paintings and tells us what is known about their creators, the Cro-Magnon people of some 40,000 years ago. He takes us through various theories—that the art was part of fertility or hunting rituals, or used for religious purposes, or was clan mythology—examining the ways interpretations have changed over time. Rich in detail, personalities, and history, The Cave Painters is above all permeated with awe for those distant humans who developed—perhaps for the first time—both the ability for abstract thought and a profound and beautiful way to express it.

**Mysteries of the Tayos Caves**—Alex Chionetti

2019-12-10 A detailed examination of the controversial expeditions to the Tayos Cave complex in Ecuador and the treasures glimpsed in its depths • Reconstructs the expeditions from the 1960s and '70s, including the Mormon Church’s search for lost tablets, Stanley Hall’s quest with Neil Armstrong, and sightings of a metal library, books of gold, copper plates, and a quartz sarcophagus • Includes photos from the author’s own dangerous expeditions to the Tayos Caves • Explores connections to Atlantis, Ancient Astronauts, and the Hollow Earth theory and the possibility of tunnel networks that extend from the Rocky Mountains to Patagonia The Cuevas de los Tayos is a cavern complex in the Amazon rain forest of Ecuador. Named for the tayos, the oil birds that reside within them, these caves have countless enigmas connected with them, from the discovery of inexplicable architectural details, to claims of curses and treasures, to
dangerous encounters with the indigenous people, the Shuar, for whom the caves are sacred. Sharing his more than 30 years of research into the Tayos Caves as well as his own explorations, Alex Chionetti examines the legends and mysteries associated with this site and the explorers who have ventured within. He details the discovery of the Tayos Cave complex by Hungarian explorer Janos Juan Moricz in the 1960s, including Moricz’s claims of finding a metal library with books of gold. Exploring the oral tradition of the Shuar, he explains how this region was the possible origin of Incan culture and the legend of El Dorado. The author shares his own dangerous explorations within the Tayos Caves, and, drawing on unpublished interviews with speleologist Julio Goyén Aguado, he reconstructs the expeditions of the 1960s and ’70s, revealing the Mormon Church’s search for lost tablets, a British army incursion, and sightings of paintings, gold statues and skeletons, copper plates, and a quartz sarcophagus—treasures akin to the Crespi treasure. The author also shares details from Stanley Hall’s suspicious expedition in 1976, which included astronaut Neil Armstrong. Investigating the lost civilizations behind the Tayos treasures, Chionetti explores the possible connections to Atlantis, aliens, Ancient Astronauts, and the Hollow Earth theory; the caves’ links with hermetic societies; and claims of tunnel networks that extend thousands of miles through both American continents, from the Rocky Mountains to Patagonia. Sharing a real-life adventure story wilder than an Indiana Jones plot, the author shows that Earth’s ancient past has many secrets waiting to be uncovered.

Coal Dust and Cave Mud - Hubert Clark Crowell
2012-11-01 Growing up just seems to happen, there is no stopping it. We get older each day. Along the way we have experiences that keep coming back and replaying in our minds over and over again. At some point in life a lot of us will have the urge to write about them. I don't know if my life is much different than all the other men who grew up in the 50's and 60's, but I would like to share it with you anyway. Some people say that we are who we are because of our environment and genes, but things have happened to me that lead me to believe that there is a something more directing our lives on this small planet. There are connections that are hard to explain. Connections with the people we meet and the places we live and visit. When I paused and looked back on my life I found lots of things that seemed divinely directed. A lot of them were not necessary about me, but about others and I only played a small part in it. Coal Dust and Cave Mud, is about coal mining in the Appalachian Mountains, and western Kentucky. It also about the caves I have explored and some that I have surveyed. The last two chapters are about the history and exploration of Pettyjohn cave in Georgia, and Pumphouse cave in Tennessee. This version is in color for better picture quality.

Terri picked up Deb’s empty coffee mug and tapped it with her non-existent fingernails. “Well,
that’s the part that got my attention, to tell you the truth. I’m sure you remember how the cave entrance is close to the maintenance shed around back? Apparently one of the janitors was out there for a while a couple of weeks ago. The whole time, something in the cave was tapping.” “Tapping? Like you’re doing right now, even though you know it gets on my nerves?” Terri stared into Deb’s eyes and nodded slowly, continuing her increasingly more annoying random noise. “Like this, yes. Other folks have heard what sounds like deep breathing, or a rumble like a train was going by under there.” She paused—thankfully both talking and tapping—as more distant thunder muttered outside. “One of them mentioned it sounded like a thunderstorm underground.”
